BIM FOR CONSTRUCTION

Join Advanced Technologies Solutions for a BIM for Construction Workshop

Are you looking for a basic framework for the BIM for Construction process with relatable examples? Join Advanced Technologies Solutions as we explore Building Information Modeling within the Construction realm. Topics will include:

- An Overview of BIM
- Autodesk's Implementation Models
- Modeling and remodeling
- Marketing and Business Development
- Construction Simulation
- And More!

This is a great starting point for becoming knowledgeable in BIM as it relates to your field!
